

Strategic alignment on the upper layers of the MQV software stack

Wednesday 1 October 2025 17:45 (50 minutes)

QACI –Q-DESSI

- What are the desired capabilities and features of the upper MQSS layers?
- How do we ensure generalizability to wide spectrum of use cases?
- How can the industrial/academic end user be supported to experience easy use and low entry barriers?

Presenter: LORENZ, Jeanette (QACI)

Session Classification: Parallel sessions
