

Before You Begin

Please install all the fonts included with this template before opening the template. This ensures that the layout and typography are displayed correctly.

How to Install the Fonts

macOS

1. Open the **Fonts** folder included with the template.
2. Select all font files (.ttf).
3. Double-click a font file, or select all files and open them.
4. In **Font Book**, click Install Font.
5. Repeat if necessary until all fonts have been installed.

Windows

1. Open the **Fonts** folder included with the template.
2. Select all font files (.ttf).
3. Right-click and choose **Install** or **Install for all users**.
 1. Alternatively, double-click each font file and click **Install**.
4. Wait until all fonts have been installed.

Important: Installing the fonts before opening the template ensures that all text is displayed correctly and prevents font substitutions.

FINAL STEP:

Please export your PowerPoint or Keynote presentation to PDF format.
Your presentation must be submitted as a PDF file.

A reference image of the template is provided below, showing how it should appear after the fonts have been installed correctly.
